Tinnitus Awareness Week**

That the Parliament welcomes Tinnitus Awareness Week (TAW), which will take place between 6 and 12 February 2012; notes that the theme of this year's TAW is raising awareness of tinnitus and related support services among GPs; further notes that there are many different causes of tinnitus including exposure to loud music, hearing loss, injury, ear infections and emotional stress; believes that tinnitus is one of the most common health problems experienced by people across the UK, and supports the work undertaken by support groups and voluntary organisations such as Action on Hearing Loss Scotland to raise awareness and provide information and advice to people affected by tinnitus.
